Art Unit: 1732

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-25, 32-46 and 73-77, drawn to an apparatus, classified in class 425, subclass 363.
  - II. Claims 47-65, drawn to a method, classified in class 264, subclass 109.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by a compression molding apparatus using a die and plunger and does not require the apparatus of the group I claims.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
5. A telephone call was made to Mr. Slater on August 18, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant's representative requested a written restriction requirement to be mailed.

Art Unit: 1732

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
